# Evermore Mwase

**COMPUTER ENGINEER · IT SYSTEMS · SOFTWARE · MACHINE LEARNING**

mwase.evermore@gmail.com
+27 60 241 2775
Cape Town, South Africa
**Open to relocation**

**Professional profile.** Computer Engineer with experience supporting users, testing and deploying business applications, managing IT environments and building web and software projects. I solve technical problems, coordinate with teams and explain issues clearly. My work includes Python, data, machine learning, AI applications and modern software delivery.

## EXPERIENCE

### Application Support · PixelFaerie

Aug 2024 — Present

Support users and business applications, investigate issues, coordinate fixes and help keep daily workflows running.

### Desktop Publisher · PixelFaerie

Mar 2024 — Jul 2024

Produced accurate, engaging PowerPoint presentations and visual materials for clients, combining technical accuracy with clear visual communication.

### IT Specialist · Audit Consult, Lilongwe

Jun 2021 — Dec 2023

Developed web applications, supported users, and managed network infrastructure across a working business environment.

## ENGINEERING & ML FOCUS

Python for data work · NumPy · pandas · SQL analytics · data cleaning · feature engineering · model evaluation · scikit-learn foundations · LLM APIs · RAG concepts · Docker · CI/CD · deployment testing · MLOps concepts

## SELECTED WORK

QR Bike Lock System: team IoT project integrating a QR-based locking concept with software and hardware.

PixelFaerie Ticketing System: internal workflow that improved ticket visibility, reporting and support operations.

Delightful Naturals: team website project where I coordinated tasks and guided delivery.

## EDUCATION

### BSc Computer Engineering

University of Livingstonia, Malawi
2018 — 2023

## CORE SKILLS

Python · PHP · JavaScript · Java · C# · C++

Laravel · React · Next.js · REST APIs · HTML/CSS

SQL/MySQL · Git · object-oriented programming

Application support · deployment validation · issue triage

Microsoft 365 · Windows · Active Directory · networking

IoT hardware/software integration · team leadership
